

COMPANY PRESENTATION

05.2018

Equity Story

Deutsche EuroShop is Germany's only public company that invests solely in shopping centers

Shopping centers are attractive investments because of

- Continuously positive development of rents
- Stable long term growth
- Prime locations
- High quality standards

Deutsche EuroShop does not seek short-term success, but rather long-term growth and the resulting stable increase in the value of the portfolio

At a Glance

21 shopping centers on high street and in established locations – 17 in Germany and one each in Austria, Czech Republic, Hungary and Poland

2017 portfolio valuation: approx. 4.93% net initial yield (after transaction costs)

Professional center management by ECE, the European market leader in this industry

Lettable space ¹	Approx. 1,087,000 sqm
Retail shops ¹	Approx. 2,700
Market value ¹	approx. €5.1 billion (DES-share €4.1 bn.)
Rents per year ¹	€296 million (DES-share €233 mn.)
Occupancy rate ^{1,2}	99%

Avg. GLA per DES-center:
 inner city 40,400 sqm
 est. locations 99,900 sqm

→ Retail turnover development on a like-for-like basis: **-0.5%** **+3.0%** **+0.2%**

→ **Absolute** retail turnover development: **+0.2%** **+3.6%** **+0.9%**

¹ German centers on a like-for-like basis (turnover: €2.2 billion)

² The sum may not equal the totals due to rounding

Online vs. stationary retail?

TURNOVER DISTRIBUTION OF A FASHION RETAILER

- Stationary retail transforms from “Point of Purchase” to “Touch Point” (product experience)
- New store concepts (flagship store, show room, multi-channel store, pick-up store), click & collect, augmented reality, online goes offline, mobile services
- “Location, location, location” newly interpreted: “Convenience, attractivity & likeability”

The customer journey in our Shopping centers

- Slovakia
- Turkey

MANY INVESTORS RELY ON ECE:

Environment

- Climate protection is a top priority for Deutsche EuroShop. We firmly believe that sustainability and profitability are not mutually exclusive. Neither are shopping experience and environmental awareness. Long-term thinking is part of our strategy, and that includes a commitment to environmental protection.
- In 2017, 19 of our 21 shopping centers had contracts with suppliers that use renewable energy sources, such as hydroelectric power, for their electricity needs. The "EnergieVision" organisation certified the green electricity for our centers in Germany with the renowned "ok-power" accreditation in 2017. We also plan to switch the remaining centers over to green electricity wherever possible within the next few years.

REDUCTION OF CO₂ EMISSIONS AND ELECTRICITY CONSUMPTION

- The 19 centers used a total of around 71.6 million kWh of green electricity in 2017. This represented 100% of the electricity requirements in these shopping centers. Based on conservative calculations, this meant a reduction of around 25,175 tonnes in carbon dioxide emissions, which equates to the annual CO₂ emissions of more than 1,100 two-person households. The use of heat exchangers and energy-saving light bulbs allows us to further reduce energy consumption in our shopping centers.
- Deutsche EuroShop also supports a diverse range of local and regional activities that take place in our shopping centers in the areas of the environment, society and the economy.
